Professional Summary

Senior Frontend Engineer with 7+ years building scalable, production-grade React, Next.js, Angular and TypeScript apps for fintech and enterprise SaaS platforms. Experienced owning product domains end-to-end, integrating AI tools into daily development workflows, and delivering high-performance, tested, and modular frontend architectures. Strong focus on code quality, performance optimization, and remote-first collaboration.

Key Competencies

- Performance optimization, accessibility (WCAG) & SEO.
- Frontend architecture, design principles, state management & feature ownership.
- CI/CD pipelines, cloud deployments & containerization (Docker).
- Debugging, cross-browser compatibility & frontend best practices.
- Security-conscious development & compliance in regulated environments

Professional Experience

Autodesk (via Net2Source - Outsourcing)

Software Engineer

Oct 2025 to Jan 2026

Short-term contract concluded due to company-wide workforce restructuring (Jan 2026)

Tech: React, TypeScript, Jest, Cypress, Performance Optimization, SASS, WCAG, Figma, i18n.

- Built reusable React components for an enterprise design system, conducting code reviews, enforcing documentation standards, and practicing TDD with Jest, Cypress, and React Testing Library.
- Improved frontend performance by ~10% through rendering pipeline and bundle optimizations, monitoring production health and stability post-release.
- Collaborated with UX designers via Figma to ensure pixel-accurate implementation of components, referencing specs, spacing, typography, and color tokens.

Therapp

Frontend Developer (Freelance)

Apr 2025 to Oct 2025

Tech: React, Next.js (SSR/SSG), Redux, TypeScript, JavaScript, Tailwind CSS, Figma, i18n.

- Owned end-to-end feature domains including dashboards and data-driven interfaces, integrating RESTful APIs and managing global state with Redux and React Context.
- Developed reusable, responsive components from Figma designs ensuring pixel-accurate implementation, scalable architecture patterns, and consistent code quality standards.
- Leveraged AI tools to accelerate development of responsive layouts using CSS Grid, Flexbox, and Tailwind, ensuring consistent rendering and SEO-friendly markup across devices.

Loyalty Science Group

Mid Senior Frontend Developer Feb 2021 to Apr 2025

Tech: Angular, TypeScript, NgRx, RxJS, REST APIs, OAuth, SASS, WCAG, Figma, i18n.

- Owned frontend on a vertical SaaS platform for loan origination and digital banking, serving major financial institutions in Costa Rica and Dominican Republic with high-availability and compliance requirements.
- Reduced static content response times by 30%, directly improving user experience across high-traffic banking flows.
- Partnered with backend and security teams to implement secure OAuth-based API integrations in a regulated fintech environment, ensuring compliance with security standards and cross-functional requirements.

Eprom

Full-Stack Developer Jan 2019 to Feb 2021

Tech: React, Java, Spring Boot, Backbone.

- Built full-stack web applications with React and Java Spring Boot, integrating RESTful APIs and optimizing SQL queries across internal microservices.

Projects

Full-Stack Web Platform (Freelance) Feb 2026 to Present

- Built full-stack web applications with React, Next.js and Node.js/Express, focusing on responsive, component-driven frontend architecture and REST API integration.
- Managed CI/CD deployment across Vercel, Railway and Cloudflare Pages using GitHub Actions and Docker.

Tools and Technologies

Frontend:React, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind, Next.js, Chart.js, Webpack, Axios, Redux, React Router, WCAG, Figma, Microfrontends.

Backend & APIs: REST, OAuth, Node.js, Java (Spring Boot)

DevOps: Git, GitHub Actions, Azure DevOps, Docker, AWS (S3, CloudFront), CI/CD

Databases: MySQL, PostgreSQL, SQL Server, MongoDB.

Testing: Jest, Cypress, React Testing Library, Selenium.

Methodologies and Tools: Agile (Scrum, Kanban), Claude AI, GitHub Copilot, Cursor, Jira, Trello.

Certifications

Node.js and Express Essentials (IBM via Coursera) July 2025

EF SET English Certificate (B2 Upper Intermediate) June 2025

Education

Bachelor’s Degree in Information Systems Engineering

Universidad Nacional de Costa Rica 2015 to 2018

Languages

Spanish (Native) | English (Professional Working Proficiency)
